

UNIVERSITY OF CENTRAL FLORIDA

UCF SUMMER INSTITUTE 2024

Biology

July 22-26
UCF Main Campus
8:00 AM - 5:00 PM

The Biology Summer Institute is a one-week program for high school students interested in seeking further understanding of Central Florida's diverse ecosystems. Students will participate in hands-on experiences alongside professional biologists and UCF students in a fun and educational setting designed to inspire a passion for studying the fields of biology, ecology, and natural resource conservation.

TOPICS COVERED:

- Studies of gopher tortoises and marine turtles
- Urban Ecology
- Vegetation Monitoring
- Wetland Health Assessment

Online application opens in February
Rising 11th-12th grade students may apply

For More Information and to Apply
siucf.cs.ucf.edu

Early applications are due April 12 and must include the online application, school recommendation with official transcript, and teacher recommendation.
